

**STUDENT CASE FILES, 1919-1980**  
**[ARC Identifier 5962185]**

**Notes about these files:** The majority of student files are segregated by gender. This series of files represents female Stewart Indian School students and begins with **box number 4** and finishes with **box number 43**. There are 3 other boxes of student records in this series (Boxes-1-3) that include additional student files from the same period of time. The files in those four boxes are not organized into individual files, however, but consist of loose papers alphabetized (A-H, H-S, T-Z) by last name within the four boxes. These files are described in a separate guide.

**Confusingly, after box number 5 in this series of female student files, the box numbers restart at box number 3 and go forward from there.** The boys' files begin with **box number 44** and end with **box number 84**. Additionally, some male student files are mixed with the female student files and vice versa. There are some errors in the alphabetization within the files that are also reflected in this list, as all files are listed in the exact order they were found in the archival boxes.
