

**STUDENT CASE FILES, 1919-1980**  
**[ARC Identifier 5962185]**

**Notes about these files:** The majority of student files are segregated by gender. This series of files represents male Stewart Indian School students begins with **box number 44** and finishes with **box number 84**. Female student files are found in boxes 4 through 43. Also, there are 3 other boxes of student records in this series (Boxes-1-3) that include additional student files from the same period of time. The files in those four boxes are not organized into individual files, however, but consist of loose papers alphabetized (A-H, H-S, T-Z) by last name within the four boxes. These files are described in a separate guide. Additionally, some female student files are mixed with the male student files and vice versa. There are some errors in the alphabetization within the files that are also reflected in this list, as all files are listed in the exact order they were found in the archival boxes.
