The principal of each school must prepare this report and sign the "Teacher's Certificate."

Whenever required the physician's certificate must be executed.

*The names of pupils dropped from the rolls during the quarter must be entered here in alphabetical order, grouped separately by sexes. The names of all pupils here recorded must also appear on the preceding pages, in their proper places, in order that the school may receive credit for the number of days they were in attendance.

If a pupil is withdrawn and returns during the same quarter the name should not be included, as he is not considered "dropped." Pupils who remain at the school during vacation and leave before the session actually opens should not be included. Make a separate report for such vacation pupils.

RECAPITULATION.

(See Special Instructions Below.)

- Number of days school was in session 119
- Total number of pupils on roll during preceding quarters (current fiscal year)
- New pupils enrolled during this quarter Period 160
- Total enrollment of different pupils to date (current fiscal year)
- Pupils dropped from rolls during preceding quarters (current fiscal year)
- Pupils dropped from rolls during this quarter Period 6
- Total number of pupils dropped to date (current fiscal year) 6
- Deduct withdrawn pupils returned (preceding quarters 0; this quarter 0) 0 6
- Present enrollment 154
- Number of pupils inschool during the quarter Period Boys 95, Girls 63, Total 160
- Average attendance for the Period Boys 58.1, Girls 58.1, Total 143.2
- Percentage of attendance, Total .98+

SPECIAL INSTRUCTIONS.

1. The number of days school is in session corresponds in boarding schools to the number of days in the quarter, except in the quarters during which school is in vacation, when the average attendance for the actual number of days school is in session shall be regarded as the average attendance for that quarter. In day schools the number corresponds to the number of days in the quarter, less Saturdays, Sundays, and authorized holidays.

2. For the first quarter of the year this inquiry will be blank. For each of the last three quarters this entry will agree with item 4 of the preceding quarter.

3. For the first quarter of the fiscal year this should include all pupils in attendance during any portion of the quarter when school was actually in session. If pupils are carried on the rolls during the vacation period and are dropped before the session opens they should not be included. This also applies to all answers to inquiries in this recapitulation statement. (See General Instructions for the method of reporting these pupils.) For the last three quarters of the year report on this line only the new enrollments during the quarter, not including pupils returned who have been withdrawn during some preceding quarter of the current fiscal year. Those withdrawn pupils should be reported on line 8.

4. This is the total of 2 and 3, and in every case should represent the actual number of different pupils who have been in school during the year.

5. This inquiry should be blank for the first quarter of the fiscal year. For the remaining quarters of the year it must show the actual number of pupils dropped from the rolls for the preceding quarters, not counting pupils dropped or withdrawn during the vacation period.

Pupils should not be classed as dropped or withdrawn if they leave school and return again during the same quarter.

6. See last paragraph of instructions for Inquiry 5.

7. This is the total of 5 and 6, and should represent the actual number of pupils who have been dropped from the rolls during the current fiscal year.

8. The pupils dropped during the year and who have been returned must be here reported, then deducted from Inquiry 7, and the difference carried to the last column.

9. Deduct the final entry on line 8 from the total on line 4; the result will be the number of pupils on the rolls at the close of the quarter.

10. This inquiry should show the actual number of different pupils in school during any portion of the quarter, and will agree with the total number of names entered in column 2 on the preceding pages. The figure here shown should be equal to the sum of the entries on lines 6 and 9. The difference between Inquiries 4 and 5, plus that of Inquiry 8, should give the same result.

11. The average attendance is obtained by dividing the total number of days in attendance by the number of days school was in session. This must be calculated correctly and carried to one decimal place.

NOTE.—Prepare a separate quarterly report for any full-blood white pupils attending the school.

(*) This total should agree with the total shown on line 5, Recapitulation of Attendance, on preceding page.

Prepare a separate quarterly report for any full-blood white pupils attending the school.

Report after "Three-quarters" includes Indians of three-quarter blood and those having more than three-quarters but less than full blood. Follow this principle in the other fractions.

(5) Outing pupils must not be included in the "No. of Days in Attendance" on the preceding pages of this report.
